#### Project Information

Project Title	Madison County Broadband Expansion 2022		
Project Cost	\$1,888,905		
County	Madison	Tier #	002
Estimated # of Households with improved access	313		
Estimated # of businesses with improved access	2		
Base Speed - Minimum Download/Upload	Greater than 100:100 Mbp		

#### Project Description (provide a brief summary of the project)

Skyrunner plans to bring new service to 315 new locations in Madison County with Fiber Optic Internet Service - up to 1000Mbps. The project will focus on the communities of Hot Springs and Firefly Mountain.

Has the applicant entered into a partnership for this project as defined in S.L. 2019-230?

Yes

#### Checklist Details

##### 1) Statement of Qualifications (Please provide a detailed description of qualifications and experience with the deployment of broadband):

Skyrunner, Inc., is a North Carolina corporation headquartered in Asheville, NC. Founded in 1999 as NewEraComm by Don Davis, we were pioneers in the deployment of wireless network technologies, installing some of the first wireless Internet links in the Southeastern US.

After reincorporating as Skyrunner, Inc. in 2004, the company quickly expanded in all directions from its core in Buncombe County. We now serve over 9,400 customers in 18 counties in western North Carolina and upstate South Carolina. We presently have 39 employees including field technicians, customer support staff, engineers, and management. Our annual gross income is over \$11 million, and we have been consistently profitable over the life of the organization.

The Skyrunner team's expertise in terrestrial fixed wireless networks is nationally recognized by our consulting customers and our industry working group WISPA. We have consulted with other ISPs all across the country on radio deployment, router management, and network design. Our wireless Internet customers consistently give us high ratings on performance, customer support, and dependability; our current Google customer rating is 4.6 stars. We believe the proof of our technical prowess is our low customer turnover and our frequent accolades in social media.

In addition to being wireless experts, Skyrunner is also an experienced fiber-optic network provider. We began our first fiber-to-the-premises (FTTP) deployment in 2015 to a 100 home development in East Asheville. Since then, we have installed both fiber optic and hybrid fiber/wireless networks over 40 WNC communities, Hot Springs NC, Cashiers NC, including a 435 home development in Yancey County and an 1800 resident retirement community in Asheville. The demand for Fiber to the Premise services has skyrocketed, with many communities currently on our coming soon list.

We operate a full-time fiber optic cable construction crew supported by a range of in-house equipment including vibratory plows, directional drills, and bucket trucks. We are capable of quickly and efficiently building out both underground and aerial fiber optic cable plants.

In every area of quality Internet Service provision, Skyrunner excels in network design and engineering, field construction, customer support and billing, network monitoring and management, and deployment of the newest, cutting-edge technologies. We can scale our well-established systems to handle any size

### Checklist Details

<p>project. We look forward to our partnership with Madison County and the State of North Carolina to make this grant-funded development project a reality.</p> <p>2. Skyrunner has secured a partnership with Madison County municipal government for the purpose of delivering fiber to the premise broadband services for the locations submitted in this GREAT Grant application.</p> <p>3. Engineering and construction services will be provided by internal Skyrunner staff some elements of construction may be performed by outside construction partners that will be selected via RFP process. Skyrunner has long-term working relationships with many utility construction companies across the country that will be included in the comparative RFP process.</p>	
<p>2) Assessment of the current level of broadband access in the proposed deployment area – supporting data may be uploaded if applicable:</p> <p>All locations in the project area are eligible for GREAT Grant funding based on FCC Form 477 data, and locations were determined using the GREAT Grant Mapping Tool.</p> <p>According to Appendix E of the GREAT Grant Guidance document, 2,137 locations in Madison County are unserved at speeds of 25/3. Skyrunner plans to bring new service to 315 new locations with Fiber Optic Internet Service - up to 1000Mbps symmetrical. This is new service to 14.7% of unserved locations in Madison County.</p> <p>According to the Broadband Indices released by the North Carolina Department of Information Technology, 36.7% of Madison County residents do not have access to 25/3 service excluding cellular and satellite. This is 554 respondents out of 1,500. Sixty-two percent of these respondents indicated that the reason that they did not have internet is because it simply was not available. One hundred fifty of these respondents (9.9%) also indicated that they did not even have access to cellular service.</p> <p>Skyrunner is proposing to deploy fiber to the home to rural census blocks in two areas of Madison County currently unserved by terrestrial 25/3 Mbps service: Firefly Mountain Estates and portions of Hot Springs.</p> <p>The area is unserved by terrestrial service &gt;25/3 Mbps as documented by the FCC 477 report (Dec. 2020). There are also multiple survey points from the "NC Broadband Survey" documenting less than 25/3 Mbps service in this area. Some residents in this area have poor quality DSL, satellite, or fixed wireless service at significantly less than 25/3 Mbps. Aerial poles carry electricity and telephone service to the area. This new project is a natural extension of the current Skyrunner footprint.</p> <p>These areas are pockets of the county that have been bypassed by other terrestrial internet service providers due to the topography and other factors making them expensive to serve. These areas are typical of the problems serving the last mile in Madison County.</p>	
<p>3) Description of Proposed Services, Advertised Speeds, and Pricing Structure for proposed broadband recipients in the eligible project area:</p> <p>1. All Locations served by the efforts of this grant application will have access to 1-gigabit fiber to the home service. Unlimited plans will be available with no data cap below 150 Gigabytes is offered to any customers included in proposed locations.</p> <p>2. The proposed advertised speed to be marketed to end-users (broken out by locations, businesses, and community anchor institutions).  Fiber Optic Internet Service - up to 1000Mbps \$115.00/Mo  Fiber Optic Internet Service - up to 500Mbps \$99.00/Mo  Fiber Optic Internet Service - up to 200Mbps \$85.00/Mo</p>	
<p>4) Description of Adoption Plan:</p> <p>Skyrunner will work in conjunction with Madison County to provide a series of community meetings at Community Centers, schools, and libraries within the areas where new service will be made available. We will advertise these meetings on social media, the county informational newsletter, websites, and the News Record &amp; Sentinel, the local Madison County newspaper. At the meetings, a Skyrunner representative will explain where the broadband service will be available, the timeline for deployment, and answer questions from community residents. We will encourage the attendees to share the coming broadband services with their neighbors through phone trees, social media, and their own community gatherings.</p> <p>Skyrunner will also run advertisements in the News Record &amp; Sentinel announcing the service areas and providing information on how to subscribe, service plan pricing, and how to schedule installation. We will also spread the word via social media through our Facebook, Twitter, and Instagram accounts.</p> <p>Finally, if we determine that specific neighborhoods are under-represented in applications for new services, we will make targeted informational phone calls to homes within those areas.</p>	
<p align="center"><b>By checking the appropriate box, you will upload the following documents:</b></p>	
5) Description of Project Area, Identification of locations to be served, relevant maps and mapping files:	<input checked="" type="checkbox"/>
6) If submitting other data sources, including field data, to identify unserved locations (households and businesses) outside of the fully unserved census blocks provided on the NC One Map, please provide a narrative describing your methodology for determining the proposed funding area is unserved and eligible for funding in this round.	<input checked="" type="checkbox"/>
7) Excel Spreadsheet (NO PDF) that itemizes the eligible activities and cost estimates. Please provide an explanation of how you estimated the costs:	<input checked="" type="checkbox"/>
8) Please provide your methodology or explanation of how you calculated cost per location (Households/Businesses):	<input checked="" type="checkbox"/>
9) Proof of Financial Solvency	<input checked="" type="checkbox"/>
10) Technical Report	<input checked="" type="checkbox"/>
11) Evidence of Support for the Project (i.e. Letter of Support)	<input checked="" type="checkbox"/>
12) Evidence or proof a partnership based on the definition in the guidance document and the authorizing legislation	<input checked="" type="checkbox"/>

## NC DIT GREAT Program

### Growing Rural Economies with Access to Technology Program

#### SCORING

*The GREAT Program is a competitive grant program. Applications shall be scored based upon a system that awards a single point for criteria considered to be the minimum level for the provision of broadband service, with additional points awarded to criteria that exceed minimum levels. Applications receiving the highest score shall receive priority status for the awarding of grants.*

*The tool below is being provided to Applicants so that they may estimate their score to determine estimated match requirements. All final and official scores will be determined by the BIO during the review process.*

	Reviewer	Score
<b>a1) Partnership</b> - One point shall be given for a proposed partnership that will make available existing infrastructure that has been installed for the partner's enterprise, non-consumer broadband purposes, or any other property, buildings, or structures owned by the partner, for a proposed project.	Choose One	0
<b>a2) Partnership</b> - A county or nonprofit entity that proposes to provide a financial match shall be given one point. Notwithstanding Article 8 of Chapter 143 of the General Statutes, or any provision of law to the contrary, a county may use unrestricted general funds or federal American Rescue Plan Act (P.L. 117 1) funds allocated to it for the purpose of improving broadband infrastructure for a financial match.	Choose One	0
<b>a3) Partnership</b> - An applicant shall receive two additional points for a proposed partnership where the county's financial match is comprised entirely from federal American Rescue Plan Act (P.L. 117 2) funds intended for broadband infrastructure.	Choose One	0
<b>b) Unserved Households(HH)</b> – Using most recent FCC Data or other information or supporting data, <b>estimated number of unserved households within the eligible county (TIER ONE)</b>	500 or Less	1
<b>c) Unserved Households (HH) to be Served</b> – Using most recent FCC Data or other information supporting data, <b>the percentage of the total unserved households with the eligible project area</b>	Less than 15%	1
<b>d) Unserved Business</b> – Using most recent FCC Data or other information by NC BIO, provide broadband service to unserved business within eligible county (TIER ONE) and project area (Documentation)	1 and 4	1
<b>e1) Piedmont or Coastal Plain Region</b>	Choose One	
<b>e2) Mountain Region</b>	Choose One	
<b>f) Base Speed - Min Download : Upload</b>	100:20 Mbps to 100:100 Mbps	1.00
<b>Total Score</b>		<b>3</b>
<b>g) Community Broadband Plan defined by NCBIO</b>	No	0
<b>h1)</b> For counties that received an aggregate of eight million dollars (\$8,000,000) or more directly from the federal government, the following points shall be added to the application score:	Choose One	
<b>h2)</b> For counties that (i) received less than an aggregate of eight million dollars (\$8,000,000) directly from the federal government from the American Rescue Plan Act (P.L. 117 2) and (ii) are providing a portion of a project's matching funds using the entirety of the federal funds the county received, together with any other unrestricted general fund monies, if needed, the following points shall be added to the application score:	Choose One	
<b>i1)</b> Are the matching funds partially comprised of ARPA funds a county received directly from US Treasury?	Choose One	
<b>i2)</b> Are the matching funds entirely comprised of ARPA funds a county received directly from US Treasury?	Choose One	
<b>Final Score</b>		<b>3</b>

*List all expenses related to the project, the amount of each expense, and the corresponding funding source(s) in the table below. The table should include all of the eligible costs such as: installation, acquiring or updating easements, equipment, fiber, construction, backhaul infrastructure for the end user, and testing costs. Ineligible costs should not be included in the project budget. The table should clearly show all planned expenditures and all funding sources for the project.*

Reviewer Score:	3	Matching Requirement (%):	50%

### Company Certifications

1	Overdue Tax Debts	Does the Company or the Related Member(s) currently have any overdue tax debts with any City, Town or County in, or with the State of North Carolina?	No
2	Occupational Safety and Health Act Violations	Does the Company, or the Related Member(s) have any citation under the Occupational Safety and Health Act that have become a final order within the past three years for willful serious violations or for failing to abate serious violations?	No
3	Loan Defaults	Is the Company, or the Related Member(s) currently in default on any loan or grant previously made by the State of North Carolina?	No
4	Incentive History	Has the Company, or Related Member(s) ever defaulted on an economic development grant or incentive or been sued by a grantor with respect to an economic development grant or incentive from the State of North Carolina?	No
5	Creditor Losses, Litigation, Government Investigations	Has any member of management or any principal of the Company, or the Related Member(s) been involved in a financial reorganization, a bankruptcy, or other situation that led to losses by creditors or bond buyers, investor lawsuits, or government investigation alleging fraud or impropriety?	No
6	Pending or Threatened Litigation	Is the Company, or Related Member(s) subject to any claim, suit, action, proceeding, or government investigation that is pending or threatened that, individually or in the aggregate, would reasonably be expected to have a material adverse effect on the proposed grantee's finances or operations or the ability to conduct the proposed project, or that would reasonably be expected to impact the NC DIT's decision to award a grant?	No

### Internet Service Provider (ISP) Certification and Attestation

The attached statements and exhibits are hereby made part of this application, and the undersigned representative of the applicant certifies that the information in this application and the attached statements and exhibits are true, correct, and complete to the best of the signatory's knowledge and belief. The signatory further certifies:

1. as Authorized Representative, the signatory has been authorized to file this application by formal action of the governing body;
2. agrees that if a grant is awarded, the applicant will provide proper and timely submittal of all documentation requested by the Grantor Agency;
3. that the applicant has substantially complied with or will comply with all federal, state, and local laws, rules, regulations, and ordinances as applicable to this project;
4. that the applicant certifies the financial and organizational strength regarding the ability to successfully meet the terms of the grant requirements and the ability to meet the potential for repayment of grant funds; and
5. attests that the proposed project area is eligible.
